How it works:

Our online courses, designed for student convenience and flexibility, are fully online and accessible 24/7. They comprise engaging videos, informative slide presentations, interactive quizzes, and a final exam, allowing students to learn at their own pace within a six-month period. This structure gives students the freedom to access and progress through the course as their schedule permits. Throughout their learning journey, comprehensive support is available, and a computer with a webcam and microphone is necessary for the final assessment.

Mission Statement

Virtual Maritime Academy is dedicated to offering only the very highest standard, flexible, online learning academy to our students utilizing subject matter experts in the design and environment, with up-to-date courses.

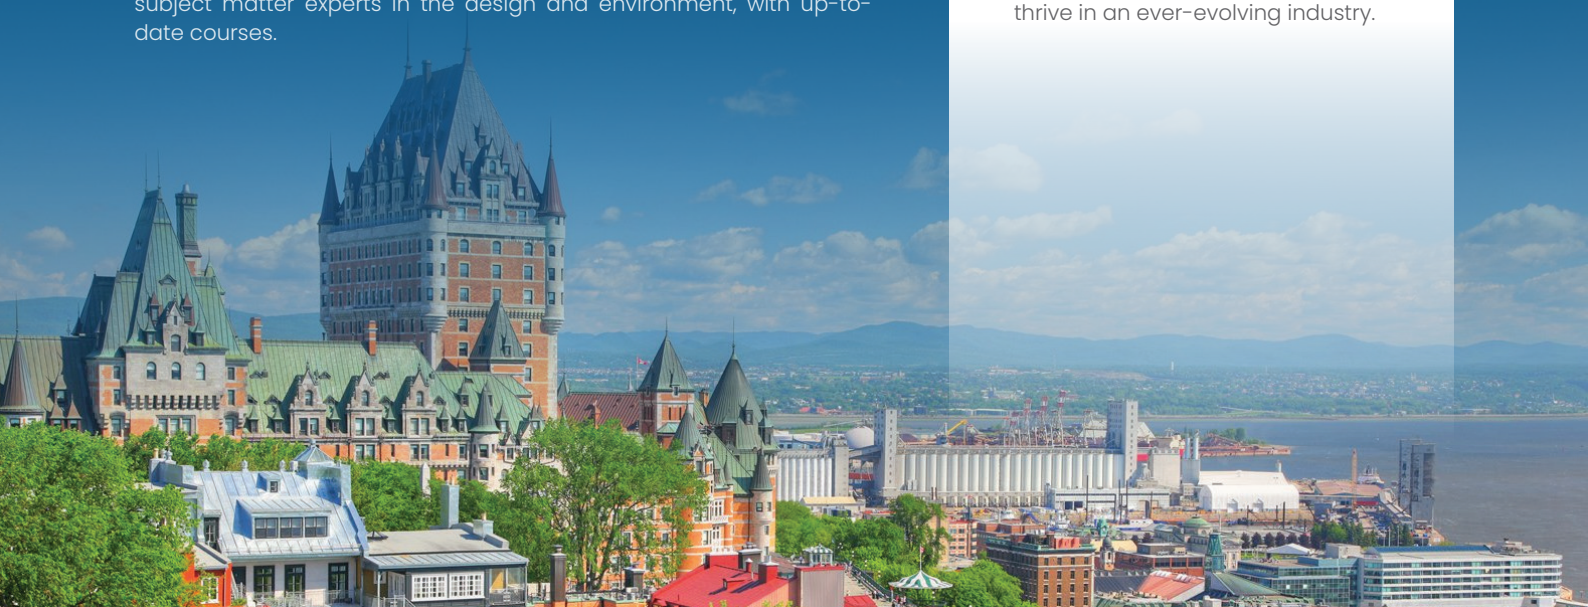

ABOUT OUR DIRECTOR EMANUEL HUARD

Emanuel Huard, Director of Virtual Maritime Academy, stands as a beacon of expertise and leadership in the maritime industry. With over two decades of rich experience, Emanuel has navigated through various facets of this dynamic field, accumulating a wealth of knowledge and insights that are second to none.

At the helm of Virtual Maritime Academy, Emanuel has evolved into a premier institution, offering cutting-edge online training programs designed for both seafarers and shoreside personnel. His approach combines the latest in digital learning technologies with practical, real-world maritime experience, ensuring that the academy's courses are not only comprehensive but also directly applicable to the daily challenges faced by maritime professionals.

Emanuel is renowned for his passion for maritime education and his dedication to fostering a learning environment that is accessible, flexible, and tailored to the needs of the modern maritime professional. His belief in continuous learning and adaptation has been a driving force in the academy's approach to online education, making it a pioneering and respected entity in the field.

As Director, Emanuel continues to push the boundaries of what is possible in maritime training, blending his vast industry experience with innovative teaching methodologies. His leadership not only guides the academy but also inspires a new generation of maritime professionals to excel and thrive in an ever-evolving industry.
